SOFTWARE
A NEW GENERATION OF SOFTWARE
DESIGNED FOR
a NEW GENERATION OF CONTENT
DALIM ES

DALIM ES

Maximum cost optimization

API-first Custom Desktop **UI**

Robust **Security and Protection**

Scalable at **any** time

Comprehensive Content Management

- **Content Lifecycle:** Streamline the entire content journey, from creation and collaboration to distribution and optimization.
- **Centralize Assets:** Store, organize, and enrich assets in one place for easy access and reuse.
- **Automate Workflows:** Eliminate manual tasks and ensure consistency with intelligent automation.
- **Collaborate Seamlessly:** Streamline review, approval, and feedback processes for faster delivery.
- **Manage Projects Efficiently:** Control tasks, deadlines, and resources for successful project execution.
- **Deliver Across Channels:** Adapt content automatically for optimal multi-channel distribution.
- **Adapt to Your Needs:** Configure and customize the solution to meet your specific industry challenges.
- **Scale with Ease:** Handle large volumes of content and adapt to your growing business needs.

Digital Asset Management

- **Discover Assets Instantly:** Find the right assets with powerful search and filtering options.
- **Enrich with Metadata:** Capture essential details and drive automation with customizable metadata.
- **Retrieve Past Projects:** Access archived projects and assets effortlessly for repeat orders.
- **Ensure Brand Consistency:** Maintain brand standards with asset versioning and access control.

Online Review and Approval

- **Analyze with Precision:** Inspect files with color accuracy, densitometry, and print measurements.
- **Examine Every Detail:** Zoom in for pixel-perfect visibility and printable layer inspection.
- **Compare Revisions:** Highlight differences visually for accurate assessment and decision-making.
- **Collaborate Effectively:** Streamline feedback with intuitive annotation tools and real-time commenting.

Project Management & Flat Planning

- **Control Projects Robustly:** Define tasks, automate assignments, track progress, and meet deadlines.
- **Visualize Print Layout:** Interact with flat plans featuring sections, regions, and versioning.
- **Engage with Virtual Books:** Create realistic flipbooks for immersive review and approval.
- **Integrate Workflows Seamlessly:** Manage workflow stages and deadlines directly within projects.

Workflow Automation

- **Automate with Ease:** Build simple to complex workflows, eliminating manual tasks and ensuring consistency.
- **Leverage Data Intelligence:** Use data, conditions, and scripting for tailored, intelligent automation.
- **Trigger from Anywhere:** Initiate workflows from documents, projects, and folders.
- **Customize Functionality:** Expand capabilities with powerful scripting for unique requirements.

The
"Workflow first"
DAM Solution

„We need to know, for example, on whose desk a project is pending approval."

Jorge Mora, Pretotyping Manager, ISDIN Corporate

Project Mapping

Plan, execute, measure, repeat & apply

State of the Art Online Proofing

Informed Decision-Making

- **Gain Actionable Insights:** Access robust reporting features and analytics tools for data-driven decisions.
- **Monitor Key Metrics:** Track performance indicators and key metrics to measure success and identify areas for improvement.

Flexibility and Configurability

- **Tailor to Your Needs:** Adapt and customize the solution to address your specific challenges and requirements.
- **Extend Functionality:** Expand capabilities with powerful scripting and customization options.
- **Build Custom Solutions:** Create tailored applications using the low-code application editor.
- **Evolve with Your Business:** Adapt the system to meet emerging market challenges and opportunities.

Scalability and Performance

- **Handle Volume with Ease:** Scale effortlessly to manage large volumes of content and complex workflows.
- **Grow with Confidence:** Rely on a scalable microservices architecture and cloud-native approach for long-term value.
- **Ensure High Availability:** Maintain optimal performance and reliability even during peak demand.

API-First and Headless Architecture

- **Integrate Seamlessly:** Leverage our API-first approach for easy integration with existing systems and tools.
- **Adopt Specific Features:** Utilize dedicated microservices without the need to adopt the entire product.
- **Ensure Interoperability:** Benefit from a headless approach that enables flexibility and compatibility.
- **Future-Proof Your Investment:** Adapt to evolving technology landscapes with a future-ready architecture.

Empower Your Content Lifecycle with DALIM ES

- **Streamline Processes:** Automate tasks, reduce manual effort, and improve overall efficiency.
- **Ensure Brand Consistency:** Maintain brand standards and visual appeal across all content.
- **Maximize Asset Value:** Extend the utility and longevity of media resources through efficient management and reusability.
- **Simplify Complexity:** Centralize content management, streamline workflows, and automate processes across brands and channels.
- **Gain Competitive Advantage:** Respond swiftly to market trends and customer demands with flexibility and automation.

Unleash the POWER of Content Lifecycle MANAGEMENT

DALIM ES: Your Comprehensive, Flexible, and Scalable Solution for End-to-End Content Management.

LET'S TALK

Our new software is built on a unique platform embracing what **DALIM SOFTWARE** calls its future-proof **MACH** architecture:

- **M**icro-services: for flexibility, and optimized up and down scalability
- **A**PI-first: enabling seamless integration of any platform component with existing systems
- **C**loud native: for 24/7 access from anywhere under proven security and smart auto-scaling, without managing a complex IT infrastructure
- **H**eadless: for advanced users who can build their own tailored applications and UX/UI

DALIM SOFTWARE is a **"made in Germany brand"** with over 35 years of experience and a passion for developing software for digital and print content production.
